

# Un extraterrestre llamado MEC MEC

Varios educadores visitan nuestras aulas disfrazados de un extraterrestre llamado Mec Mec.

Es un personaje que viene de otro planeta preocupado porque en los últimos años el humo de nuestra atmósfera le impide ver nuestros mares, lagos y montañas desde la terraza de su casa en el planeta ÑAM.

Decide visitar la Tierra y explicar a los niñ@s lo que pasa porque son personitas muy inteligentes y está seguro de que quieren cuidar su planeta.

A través de imágenes y la recitación de un cuento, Mec Mec explica a los alumn@s el significado y las fuentes de contaminación. Enseña a los niñ@s de forma amena el valor de nuestro medio natural y fomenta en ellos el respeto por el medio ambiente.

Al final de la visita los alumn@s aprenden algunos comportamientos respetuosos y que evitan la contaminación.

Mec Mec muy feliz regresa a su planeta y regala a los niñ@s una careta y un cuento para que recuerden su compromiso de cuidar el planeta Tierra.

## The play CAM visits Elian's students

Students from Elian's British School, La Nucía enjoyed an educational visit from CAM designed to increase awareness of climate change and the effects of global warming on our planet.

An Alien called MEC MEC

Various educators dresses as an alien called MEC MEC visited the classrooms. The alien claimed to have come from the planet ÑAM and was worried because he had not been able to see Earth's wonderful mountains, seas and lakes for many years due to the pollution.

He decided to visit the Earth and explain to the children, who are very intelligent small people, what was happening and to make sure they looked after their planet.

Through images and stories, MEC MEC explained the significance of the problems to the pupils. He demonstrated the value of our natural environment and encouraged them to have respect for it.

At the end of the visit, the children found out how they could avoid polluting the atmosphere and a contented MEC MEC returned to his planet.
