

Being able to offer Fencing lessons is something that has been in the extracurricular activities coordinator's mind for a while, and this year, it's been finally made possible. The masters, Taimi and Luis are both champions in their different categories and besides being excellent at this sport, they are fantastic with the kids.

All the pupils enrolled in this Club are delighted with it and are looking forward to their weekly lesson.

We are also enthusiastic about the Fencing Exhibition that will take place in our school next May.
